

In Memory of "Casper"  
Ray Huff, Sedgwick, Kansas

Casper spent most of his life in a home setting, until he was kicked out by a woman's new husband, and was taken to a veterinarian to be euthanized. This woman's father intervened and Casper was saved, the father contacted me about finding a home for Casper.

Casper was 16 years old when he arrived at the Sedgwick Police Department. He quickly adapted to his new role as office cat and his unique personality was evident immediately. Casper never met a stranger, always greeted visitors and staff with a soft purr and attention. Casper provided countless hours of joy to me and all the other officers; school children would stop by the office to visit with Casper after school. He was featured in the local newspaper on several occasions.

I am unable to count the number of times you found the delete button on the keyboard, or the number of times you decided you weren't getting enough attention so you threw EVERYTHING off my desk. You interrupted more than one City Council Meeting with you singing your song because you knew I was in the building where you weren't allowed to go. You were a joy to me even on those occasions.

Casper passed away at the age of 18, on 5/12/09 of kidney failure. You touched many lives Casper, you are very special and you will never be forgotten. I will see you again at Rainbow Bridge.
